Frequently Asked Questions

What is the process to initiate services?

Once you have decided to have care, Lorien at Home will schedule a nurse to complete a client & home assessment. The nurse will create a customized care plan tailored to your needs and a Service Agreement will be completed prior to the start of care. (Service agreements can be completed on line or in person.)

Are your caregivers bonded and insured?

Yes, every caregiver is an employee of Lorien at Home and is provided general liability and worker's compensation insurance.

Do you perform background checks on caregivers?

To help ensure the safety and wellbeing of our clients, criminal background and drug screens are completed on all employees along with employment verifications.

Will my insurance cover the cost of private care?

Medical insurance plans do not typically cover home care however, some Long-Term Care insurance policies have a benefit for home care. Lorien at Home will provide LTC insurance companies with any required care documentation for necessary client reimbursement.
